EDUCATION

K S Rangasamy College of Technology, Tamil Nadu	*September 2023 - July 2027*
B.Tech. Information Technology	CGPA: 6.25/10 (Till 5th Semester)

TECHNICAL SKILLS

Backend	: C, Java, Python
Frontend	: HTML, CSS, JavaScript,
Database	: MySQL,
Tools/Technologies	: Git, GitHub, VS Code, Eclipse

PROJECTS

· **E-Commerce Product Catalog & Quick View System – Web Technology Project**

· Developed a responsive web-based product catalog system using HTML, CSS, JavaScript, React and backend APIs to display categories such as groceries, beverages and daily-use products.

· Designed clean and user-friendly interfaces for browsing categories, viewing product lists, and opening product detail pages with the exact uploaded images.

· Integrated backend services and database connectivity to store and retrieve product, category and image data efficiently.

· Implemented a Quick View popup feature that allows users to preview product information instantly without leaving the current page.

· Added search and category filtering to improve product discovery and user experience.

· Improved application performance and reliability through structured testing, optimized API calls and reusable UI components.

ADDITIONAL SKILLS

· Basic knowledge of Git and GitHub.
· Strong knowledge of Data Structures.
· Ability to find and fix errors (debugging).
· Knowledge of SDLC and responsive web design.
· Good analytical and problem-solving skills.
· Effective time management and teamwork skills.
· Quick learner with adaptability and basic documentation skills.
